INTRODUCTION

Our Story began

We started our journey in the name of Universal Fx Studio as an advertisement and digital Marketing company in the year of 2015. A passion to build a company that thinks for the 'consumers' and believes in innovation. We provide Website and Application development services along with digital marketing Service across the world for the client's business and IT needs.

ABOUT US

Welcome to Valk Technologies and Solutions an IT and ITeS, web development company. With 8 years of experience in the industry, we specialize in creating outstanding websites and web applications for businesses of all sizes. Our team of dedicated professionals is passionate about delivering high-quality services that meet the unique needs of our clients. We take pride in our attention to detail and our ability to customize our services to meet the individual requirements of each project. In addition to website design and development, we also offer website maintenance, hosting, and SEO services. We are committed to building long-lasting relationships with our clients and helping them achieve their business goals through our services. Contact us today to learn more about how we can help you establish a strong online presence for your business.

Our philosophy

Do good and the good will come to you. Each Web or application project or digital marketing projects we select, we treat as our own because our client's success fuels ours.

OUR MISSION

Our mission is to be a partner to our clients, providing guidance and support every step of the way. We are dedicated to investing in our team, technology, and resources to ensure that we can deliver the best possible results for our clients.

1

Main Mission

To empower businesses with cutting-edge technology solutions that drive growth and innovation

3

Secondary Object

To provide ongoing support and maintenance to ensure our clients' websites and applications are always up-to-date and functioning optimally.

2

Primary Object

To deliver custom web development services that are tailored to our clients' unique needs and objectives.

4

Bonus Stage

To offer training and education programs that enable businesses to maximize the potential of their technology investments and achieve their goals.

OUR VISION

Valk Technologies and Solutions envisions a world where businesses of all sizes have access to cutting-edge technology solutions that drive growth, efficiency, and innovation. We strive to be a leader in the IT and ITeS industry, delivering high-quality web and software development services that empower our clients to achieve their goals and unlock their full potential. Our vision is to be a trusted partner to our clients, providing reliable, customized solutions that enable them to stay ahead of the competition and achieve long-term success. We are committed to innovation, sustainability, and ethical business practices, and we believe that by leveraging the power of technology, we can help create a better world for all.

Why **VALK TECHNOLOGIES & SOLUTIONS**

Expertise

At Valk Technologies and Solutions, we have a team of highly skilled and experienced developers who are proficient in various programming languages and technologies. We keep up with the latest trends and advancements in the industry to provide you with the best possible solutions.

Customization

We understand that every business has unique requirements and objectives. That's why we offer customized solutions tailored to meet your specific needs. We work closely with you to understand your goals and develop solutions that align with your vision.

Communication

Clear and timely communication is crucial for successful project delivery. We prioritize communication and keep you informed throughout the development process. We are always available to answer your questions and address your concerns.

Quality

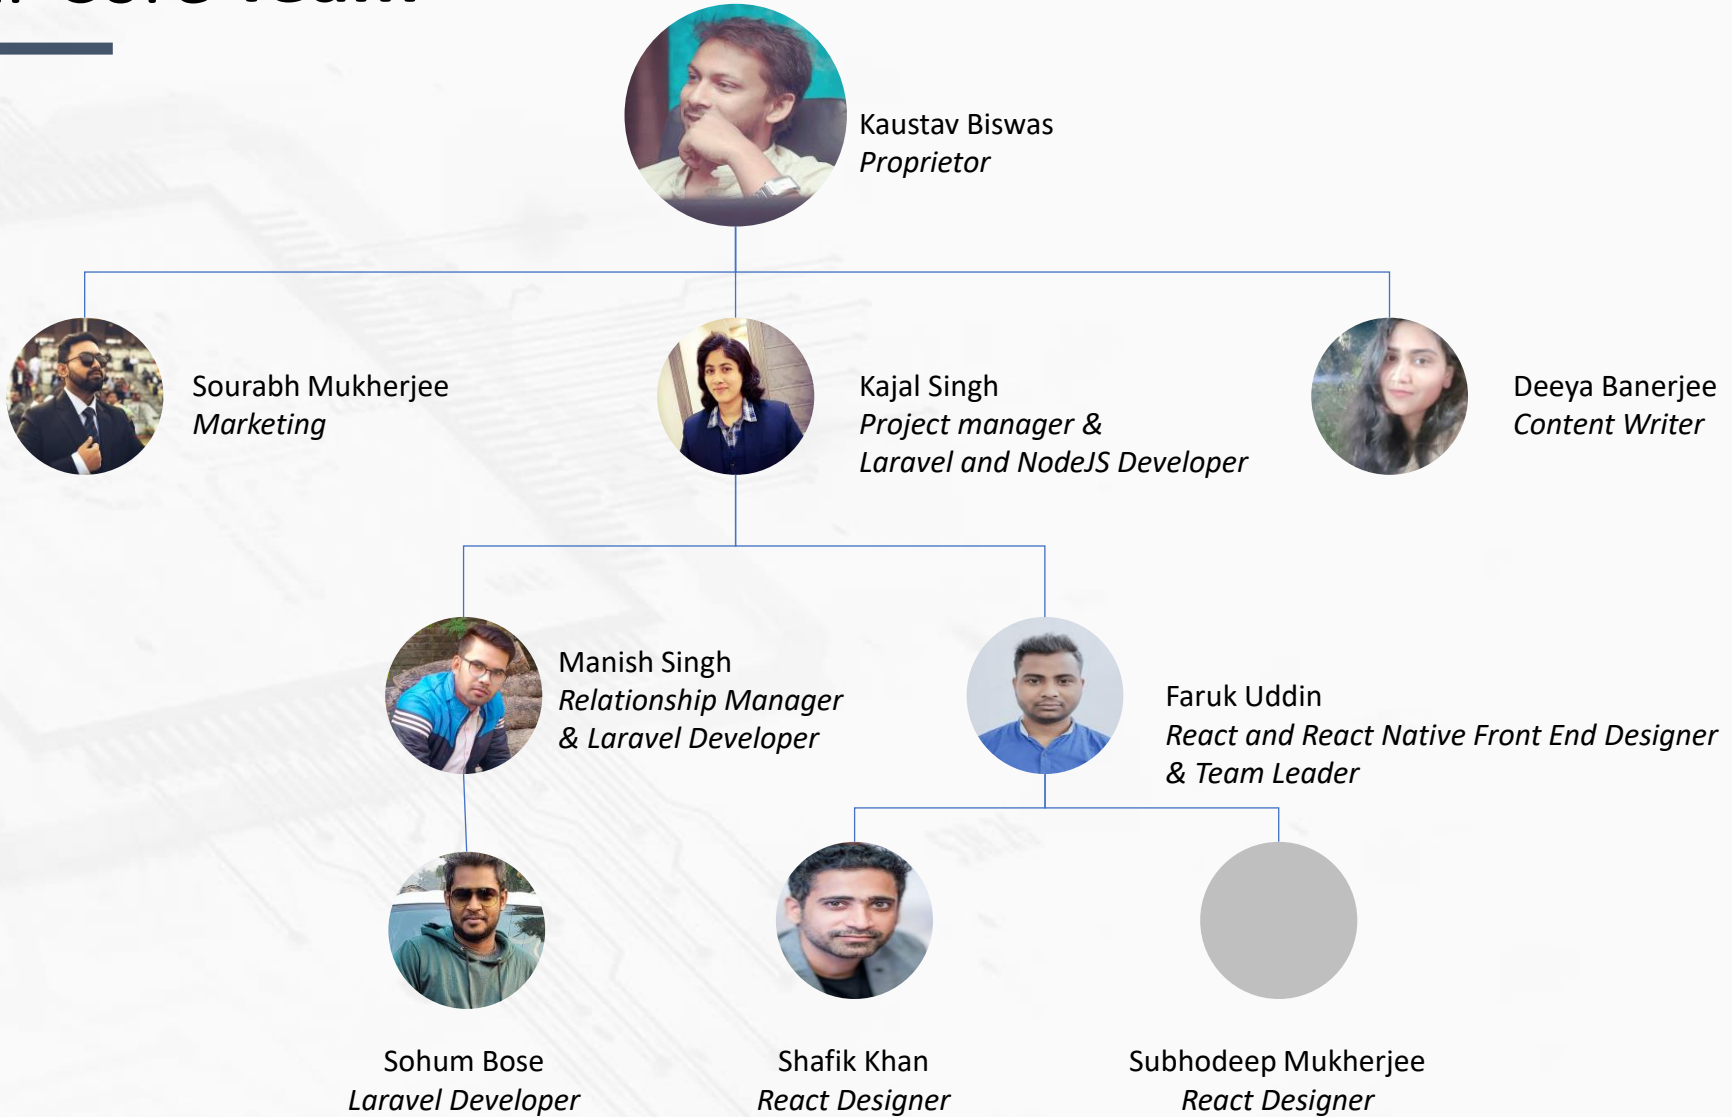

We are committed to delivering high-quality solutions that meet your expectations. We follow a rigorous quality control process to ensure that our solutions are bug-free, scalable, and performant.

Timeliness: We understand the importance of delivering projects on time. We work efficiently and prioritize project timelines to ensure that we meet your deadlines.

Customer satisfaction: Our ultimate goal is to ensure that you are satisfied with our services. We go the extra mile to exceed your expectations and provide you with solutions that help you achieve your business goals.

Valk Technologies and Solutions can be your reliable partner for all your IT and website development needs. We offer expertise, customization, clear communication, quality solutions, timely delivery, and customer satisfaction. Contact us today to learn more about our services and how we can help your business grow.

Types of E-Commerce Web Applications we Build

Single Vendor E-Commerce Web App

A single vendor e-commerce website is operated by a single business or seller that exclusively sells its products or services on the platform.

Multi Vendor E-Commerce Web App

A multivendor e-commerce website, also known as a marketplace, allows multiple vendors or sellers to offer their products or services on a single platform.

Types of **Applications** we Build

Mobile Applications:

Technologies Used: React Native for frontend
NodeJS / Laravel for backend

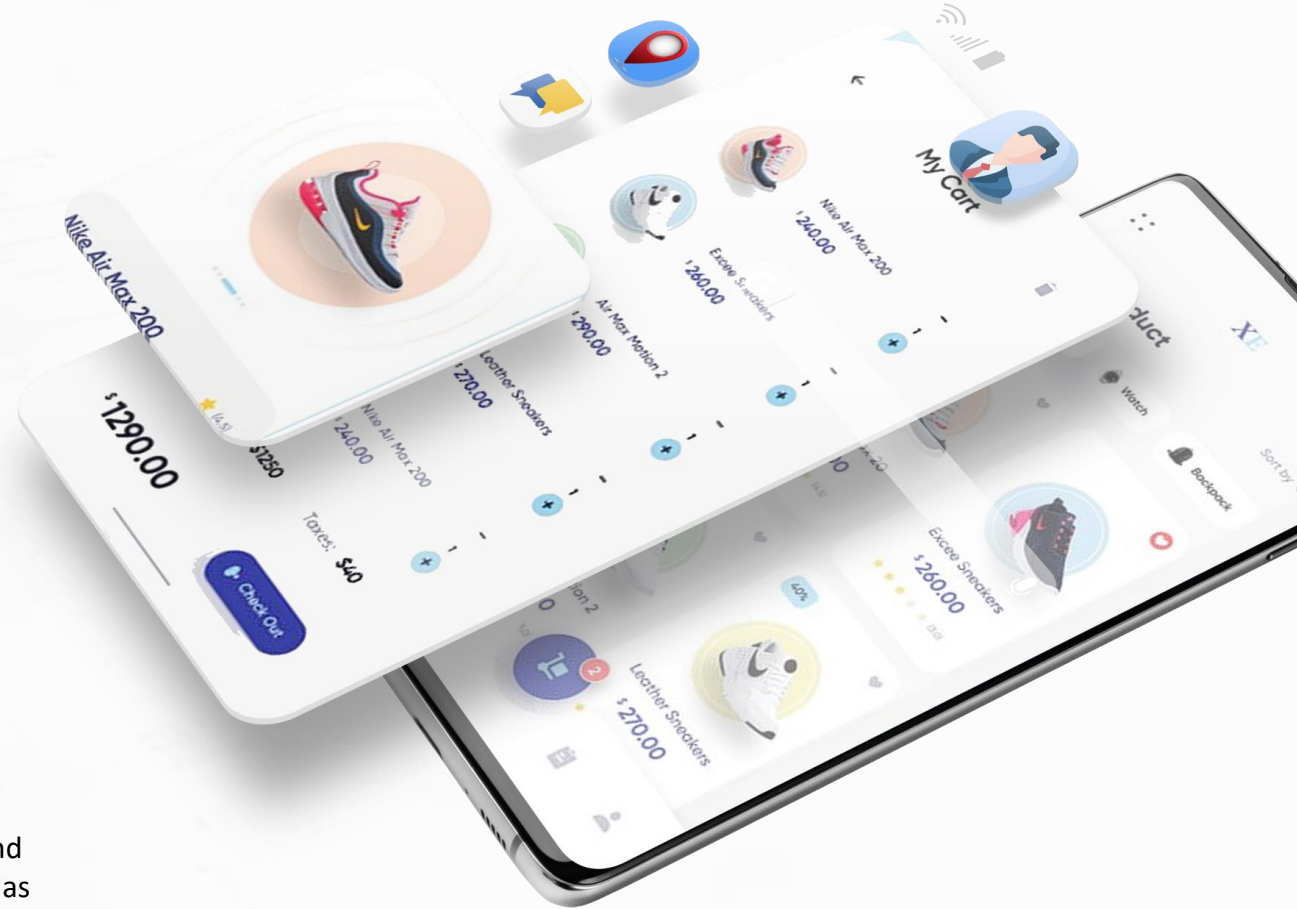

- a. E-commerce App
- b. Service Provider App
- c. Fitness App
- d. Travel App

Web Applications:

Technologies Used: React for frontend
NodeJS / Laravel for backend

- a. Content Management System (CMS)
- b. Project Management Tool
- c. Customer Relationship Management (CRM) System
- d. E-learning Platform
- e. Booking System

These are just a few examples, and Valk Technologies and Solutions can tailor the mobile and web applications to meet specific requirements and objectives of their clients using ReactJS as the development framework.

Segments of **Digital Marketing** we do for our clients

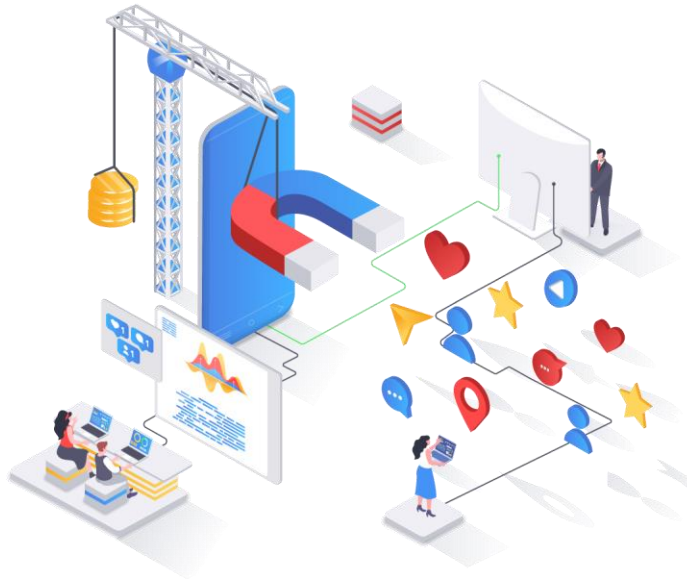

Search Engine Optimizations (SEO)

It involves optimizing a website to improve its ranking and visibility on search engine results pages (SERPs) for specific keywords.

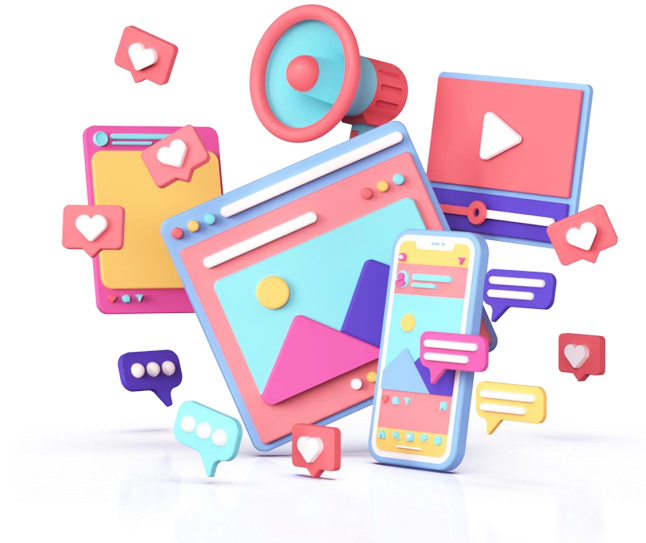

Search Engine Marketing (SEM)

It refers to paid advertising on search engines, such as Google Ads, Bing Ads, and Yahoo Search Ads, to drive traffic to a website.

Social Media Marketing (SMM)

It involves using social media platforms, such as Facebook, Instagram, Twitter, LinkedIn & Youtube to promote a brand and engage with target audiences.

Website Development and Content Management

Our Experienced Developers write quality of code to assist entrepreneurs and clients to meet the business needs in a growing competition by integrating advanced features in website development and content management

Branding and Marketing

As a brand itself we do understand the importance of branding and marketing to hold a strong position in the market.

Our 8+ years of experience have helped us understand the micro and macro processes in execution of the strategy for a particular brand. We know that people are more likely to remember a business with a personality-rich brand identity than without a distinctive voice or specific values that it stands for.

Single vendor e-commerce stores

Single vendor e-commerce refers to an online store where all the products are sold by a single vendor or seller. This type of e-commerce is also known as a "direct-to-consumer" model, where the vendor sells directly to the customer without any intermediary.

Our main Goal

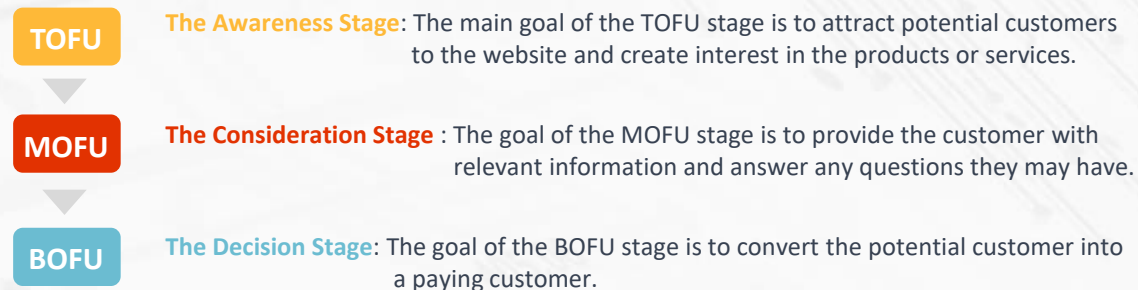

1.Creating a seamless user experience: We focus on creating a website that is easy to navigate and provides a seamless user experience. This includes ensuring that the website is fast, responsive, and mobile-friendly.

2.Maximizing conversions: We design the website with the goal of maximizing conversions. This includes creating a clear call-to-action, optimizing the checkout process, and implementing effective marketing strategies to drive traffic to the website.

3.Ensuring security: We prioritize the security of the website and its users by implementing proper security measures such as SSL certificates, encryption, and secure payment gateways.

4.Providing support and maintenance: We provide ongoing support and maintenance to ensure that the website is up-to-date, secure, and functioning properly

Frontend: React, Next.js

Backend: Node JS

Benefit of developing E-Com website in React and Nodejs

Speed and performance: React and Node.js are known for their fast performance, allowing for faster load times and improved user experience.

Scalability: Both React and Node.js are highly scalable, making them suitable for building e-commerce websites that can handle high traffic and complex user interactions.

Flexibility: React and Node.js offer a high degree of flexibility, allowing developers to build custom, modular solutions that meet the specific needs of an e-commerce website.

Improved SEO: React and Node.js allow for server-side rendering, which can improve the website's search engine optimization (SEO) by ensuring that search engines can crawl and index all pages.

Rich user interfaces: React provides an intuitive and responsive user interface, which can enhance the user experience and encourage visitors to stay longer on the website.

Robust back-end: Node.js is an excellent choice for building the back-end of an e-commerce website, offering a powerful, scalable, and easy-to-use platform for developing APIs and managing data.

Social media is not just about being **social**, it's about being **strategic**. With the right approach, it can be a powerful tool to connect with your audience, **build your brand, and drive business results**

Our **Social Media Marketing** plan is designed to increase **Brand Awareness**, **Drive Website Traffic**, and **Generate Leads** for your business.

We will focus on creating high-quality content, engaging with your audience, and analyzing data to optimize our strategy.

Strategy:

Social Media Audit: We will conduct a thorough audit of your current social media accounts to identify strengths, weaknesses, and areas for improvement.

Competitor Analysis: We will analyze your competitors' social media presence to identify opportunities and best practices that we can apply to your own strategy.

Content Strategy: We will develop a content strategy that aligns with your brand voice and values, and is tailored to your target audience. This will include creating a content calendar, outlining content themes and topics, and developing a mix of content types (such as images, videos, and blogs).

Audience Engagement: We will engage with your audience by responding to comments, messages, and mentions, and actively participating in relevant conversations and hashtags.

Influencer Marketing: We will identify influencers in your industry and collaborate with them to promote your brand and reach a wider audience.

Paid Social Advertising: We will develop and execute targeted social media advertising campaigns to reach specific audiences and generate leads.

Types of Post we will Develop for your business That will Boost up the Productivity & Engagement

- Instagram Normal Post
- Instagram Carousel
- Instagram & Facebook Story
- Facebook Post
- Reels with Motion Graphics Animations
- And many more

Social Media Marketing (SMM) Project for Yuksom Breweries Pvt Ltd

Client Testimonials

Very efficient people, with great delivery within time limit. What else one needs, right? My personal experience with them, has remained great. They are very positive with what they do, and they are a bundle of knowledge who's ready to share with others through their work. So working with them has gained me knowledge and specific notes to realise what I can do with my venture. A very friendly and welcoming gesture at all times is something to gain these days in a work culture yet damn professional is not easily found these days. Without giving a second thought I always share their contacts to the people in need of them.

- Raveena Rit
AsUMoot Founder

Professionally guided me throughout.
Satisfied with the end product and
their ever ready accompaniment

- Bidita Biswas
Founder of Aagamoni

Valk Technologies did a great job with the delivery of our project. They delivered each component as discussed & planned. Initially we were very skeptical about going with a new company for our needs, but they have exceeded our expectations.
